

Quarterly Report on Agency Services to Floridians with Developmental Disabilities and Their Costs

First Quarter Fiscal Year 2021-22
(July, August, September)

Submitted November 15, 2021

Barbara Palmer
Director

Ron DeSantis
Governor

The Agency for Persons with Disabilities (APD) administers Medicaid waivers providing supports to over 34,900 individuals with developmental disabilities across Florida enabling them to live, learn and work in their communities. APD also provides limited services to over 22,700 individuals on the Waiting List for waiver services. These individuals have Autism, Intellectual Disability, Spina Bifida, Cerebral Palsy, Down Syndrome, Prader Willi syndrome, Phelan-McDermid syndrome, or are children ages 3 to 5 who are at high risk of being diagnosed with a developmental disability.

To meet the needs of the diverse population it serves, APD offers a wide array of services for individuals who are living in their own homes, family homes, or in licensed group facilities. Some of the 27 services currently provided by the agency include life skills development (companion services, adult day training, and employment services), occupational therapy, behavior analysis, adaptive and medical equipment, residential habilitation, and physical therapy.

For the period of July through September 2021, over 690 individuals on the Waiting List for waiver services received limited services funded from General Revenue and the Social Services Block Grant (SSBG) through the agency, and over 8,600 Medicaid eligible individuals received some state services through the Medicaid State Plan. About 14,000 individuals on the Waiting List for waiver services did not receive any services through APD or the Medicaid State Plan during this period.

Historical Overview

On May 1, 2011, the agency began implementation of the new Developmental Disabilities Home & Community Based Services Individual Budgeting Waiver known as iBudget Florida. The iBudget Florida waiver uses an individual budgeting approach intended to enhance the simplicity, sustainability, and equity of the system while also increasing individuals' opportunities for self-direction. As of July 1, 2013, APD completed the transition of waiver clients to the iBudget Florida waiver statewide from the Tier Waiver system that had been in place since 2008.

This report is prepared and distributed pursuant to section 393.0661(9), Florida Statutes.

“The Agency for Persons with Disabilities shall submit quarterly status reports to the Executive Office of the Governor, the chair of the Senate Ways and Means Committee or its successor, and the chair of the House Fiscal Council or its successor regarding the financial status of home and community-based services, including the number of enrolled individuals who are receiving services through one or more programs; the number of individuals who have requested services who are not enrolled but who are receiving services through one or more programs, with a description indicating the programs from which the individual is receiving services; the number of individuals who have refused an offer of services but who choose to remain on the list of individuals waiting for services; the number of individuals who have requested services but who are receiving no services; a frequency distribution indicating the length of time individuals have been waiting for services; and information concerning the actual and projected costs compared to the amount of the appropriation available to the program and any projected surpluses or deficits...”

1. Services Received by Waiver Enrollees

Tables 1a, 1b, 1c and 1d provide information on services received by persons enrolled in APD waivers.

Table 1b summarizes types of services received by waiver enrollees. In addition to iBudget Florida waiver, individuals may receive services through the Consumer-Directed Care Plus (CDC+) Program, offered as an option under the Medicaid State Plan. The CDC+ Program offers comparable services to the waiver, but it allows greater flexibility and more choice in client selection of providers and services. Table 1b also includes two types of services funded by APD that are not part of Medicaid: Individual and Family Supports (IFS) and Room and Board. The former, paid from General Revenue and the Social Services Block Grant, comprises services to persons not eligible for waiver services, services to persons waiting for waiver enrollment, and services to persons enrolled in a waiver for which the service is not a waiver service. Room and Board, paid entirely from General Revenue, provides payment to licensed residential providers for individuals to cover the basic costs of room and board and supervision.

1. Services Received by Waiver Enrollees (continued)

In addition to the previously cited services, many waiver enrollees receive Medicaid State Plan services. Table 1c summarizes the number and percent of waiver enrollees who use these services.

Table 1d lists the number of clients using individual waiver services. Because clients typically use multiple services, the client total at the bottom of the table is an unduplicated count.

2. Services Received by Persons on the Waiting List

Table 2a lists APD services received in July, August, and September 2021 by individuals who requested enrollment in a waiver but were not enrolled as of the first day of the respective months. Funding for these services came from General Revenue and the Social Services Block Grant. Individuals on the Waiting List ages 21 or younger may also receive services from the Florida Department of Education, Medicaid State Plan, and other state and local resources.

Table 2b provides client counts of persons on the Waiting List who received APD services. (see Table 2a) or Medicaid State Plan services. The APD services are provided with state General Revenue and Social Services Block Grant funds. Because some clients received both APD and Medicaid State Plan services, the client count in the fourth row is an unduplicated total rather than a sum of the two prior rows. The last two rows in the table provide information on Waiting List clients who received neither APD services nor Medicaid State Plan services. Note that some Waiting List clients are not currently eligible for Medicaid State Plan services.

Table 2b: Client Counts of Non-Medicaid and Medicaid State Plan Services Received by Clients Waiting for Services as of July 1, August 1, and September 1, 2021*

*Clients are counted only once regardless of the number of different services they received.

** Unduplicated count for the clients receiving Medicaid services or APD services or both.

***Based on historical payment patterns, Medicaid State Plan services may be undercounted due to unsubmitted claims for the reported service months as of the effective date.

3. Waiver Enrollment in Fiscal Year 2021-2022

Table 3 summarizes new waiver enrollments for FY 2021-2022. Crisis cases are enrollees whose needs for services have been determined to require priority enrollment as defined in statute and rule. CBC Children are children on the Waiting List for iBudget Waiver who have open cases in the Department of Children and Families' child welfare system. Beginning in FY 2013-14, the agency received additional appropriation to begin offering enrollment to individuals from the Waiting List as specified in proviso.

4. Length of Wait for Waiver Services

Table 4 displays a frequency distribution of the length of time individuals have been waiting for waiver services. Agency policy allows people to remain on the Waiting List if they currently do not need services or do not qualify for Medicaid at the time. These counts include individuals who declined waiver enrollment offers and those who received other state assistance.
