

Reminders for Group Home Providers and In-home Support Staff

Medication Administration Validation Certificate

All Medical assistance providers must be validated annually to administer or supervise medication administration.

Validation should be done annually and at least 3 months before it expires.

Once validation certificate expires, Medical Assistance Providers are required to redo Medication administration training 65G – 7.000 then validated.

Authorization for medication Administration& Consent forms

All consumers receiving medications in supported living and group homes are required to have a current signed Authorization form for medication administration by their PCP, ARNP or Physician Assistant.

Consumers requiring medication to be administered to them or requiring supervised medication administration need a current signed medication administration consent form. This form requires two witnesses.
