(866-273-2273)

Present: Joe Paul, Sandra Mills, Micky Beuregard, Charlene Johnson, Dom Sotero

Purpose: to show Dom Sotero to review the Orientation power point and receive feedback on the length, content and if he would be able to put it on his web site. Dom and the group looked at the power point. Then, Dom pulled up his web site and gave the group a tour. This was a way that he would be able to gather and locate providers in one central location. He found himself, and still has brochures and information on various providers in the community (paid/unpaid). This made is easier for him when he had to locate providers for the people he was supporting. Information about providers can easily disseminated to individuals and their families through a Support Coordinator who have a paid subscription to the site. He indicated providers could advertise their business. Providers can advertise in the general section of the site. For providers who can not advertise to the public directly due to regulations set by the Agency would be able to advertise.

Suggestions that came out of the meeting:

- ◆ It needs to be shorter.
- ◆ Section it off – arrange the information according the audience and the needs. Short version vs. long version
- ◆ Consider using pictures
- ◆ Make the language more user friendly
- ◆ Will it be in other languages beside English?
- ◆ Move the e-mails and addresses to the end
- ◆ Audio over for clarification
- ◆ Check with web-master to set proper timing sequence
- ◆ If the WSC has a lap top they will be able to explain to the person/family directly
