Quarterly Report on Agency Services to Floridians with Developmental Disabilities and Their Costs

Fourth Quarter Fiscal Year 2009-2010
(April, May, and June 2010)

Submitted August 2010

Jim DeBeaugrine
Director

Charlie Crist
Governor
Introduction

Each month, the Agency for Persons with Disabilities (APD) serves approximately 35,000 people across Florida diagnosed with autism, mental retardation, spina bifida, cerebral palsy, or Prader-Willi syndrome, or are children aged 3 to 5 who are at high risk of being diagnosed with a developmental disability. The great majority of APD’s services are provided through four Medicaid waivers administered by the agency.

To meet the needs of the diverse and often medically complex population it serves, APD offers a wide array of services. Some of the 27 services currently provided by the Agency include supported employment, supported living, occupational therapy, behavior analysis, adaptive equipment and medical supplies, physical therapy, and adult day training. Companies under contract with the agency determine the medical need for a service and authorize it prior to delivery.

From April through June 2010, more than 1,300 people on the wait list received General Revenue funded services through APD, and more than 9,800 received some state services through the Medicaid State Plan, which leaves about 8,400 people on the wait list who did not receive any services through the Agency or the Medicaid State Plan. The number without services is something APD hopes to address even as it works to hold spending within the budget appropriated by the legislature. The Agency's strategies to limit spending in response to declining state revenues have concentrated on greater system efficiencies that will minimize any adverse impact on those served.

On October 15, 2008, APD implemented a new, four-tiered waiver system as mandated by the Florida Legislature, after working with stakeholders to develop the implementation plan. The waiver tiers are actually four separate waivers, with three of them having financial caps. Tier 1 was formerly known as the Developmental Disabilities Waiver, and Tier 4 was formerly the Family and Supported Living Waiver. The Legislature passed legislation implementing new tier caps during the 2010 session. The agency anticipates implementing these caps on Jan 1, 2011, upon receiving approval of the state’s waiver amendment from the Centers for Medicare and Medicaid Services (CMS). Until the state’s waiver amendment is approved, the current caps remain effective. These caps are:

Tier 1 - No cap
Tier 2 - Capped at $55,000/year
Tier 3 - Capped at $35,000/year
Tier 4 - Capped at $14,792/year

Most agency clients have not been subject to reductions in service as a result of this new waiver system. For some, however, it means that the state will not pay as much for services as in the past. The Agency's goal in implementing these changes is to ensure the health and safety of the people served by APD while making adjustments to control and reduce costs. To obtain the federal approval for this new program, APD worked with the Agency for Health Care Administration (AHCA).
This report is prepared and distributed pursuant to section 393.0661(5), Florida Statutes:

“The Agency for Persons with Disabilities shall submit quarterly status reports to the Executive Office of the Governor, the chair of the Senate Ways and Means Committee or its successor, and the chair of the House Fiscal Council or its successor regarding the financial status of home and community-based services, including the number of enrolled individuals who are receiving services through one or more programs; the number of individuals who have requested services who are not enrolled but who are receiving services through one or more programs, with a description indicating the programs from which the individual is receiving services; the number of individuals who have refused an offer of services but who choose to remain on the list of individuals waiting for services; the number of individuals who have requested services but who are receiving no services; a frequency distribution indicating the length of time individuals have been waiting for services; and information concerning the actual and projected costs compared to the amount of the appropriation available to the program and any projected surpluses or deficits…”

Glossary of Terms Used in Report

APD- Agency for Persons with Disabilities

CDC+ Program- Consumer-Directed Care Plus Program

FSL Waiver- Family and Supported Living Waiver

DD/HCBS Waiver- Developmental Disabilities Home and Community-Based Services Waiver

IFS- Individual and Family Supports
1. Services Received by Waiver Enrollees

Tables 1a, 1b, 1c and 1d provide information on services received by persons enrolled in APD waivers.

</tr>
</tbody>
</table>

*CDC + enrollments are included. Effective October 15, 2008, a tier structure was established which changed the basis for defining enrollment in the waivers. Beginning with the third quarter of FY 08-09, FSL enrollment is reported as enrollment in tier 4, and DD/HCBS comprises all other waiver enrollment, including new enrollees for whom a tier has not yet been assigned. The implementation caused the shift of several thousand clients between tiers. Since waiver payments are reported in this table by month of payment rather than by month of service these clients likewise may show claims payments simultaneously under both waivers.

**As of the first day of the month.

Source: Allocation, Budget, and Contracts (ABC) Database and Medicaid EDS Data Warehouse as of August 1, 2010.

Table 1b summarizes types of services received by waiver enrollees. In addition to the tier waivers, individuals may receive services through the Consumer-Directed Care Plus (CDC+) Program, offered as an option under the Medicaid state plan. The CDC+ Program offers comparable services to the tier waivers, but it allows much greater flexibility and choice in client selection of providers and services. Table 1b also includes two types of services funded by APD that are not part of Medicaid: Individual and Family Supports (IFS) and Room and Board. The former, paid from General Revenue and the Social Services Block Grant, comprises services to persons not eligible for waiver services, services to persons waiting for waiver enrollment, and non-waiver services to persons enrolled in a waiver. Room and Board, paid entirely from General Revenue, provides payment to residential providers for clients with identified support and income needs.

</tr>
</tbody>
</table>

*Clients are counted only once regardless of the number of different services they received. Based on historical payment patterns, waiver and General Revenue services are undercounted due to the anticipated unsubmitted claims for the reported service months as of the database effective date. Effective October 15, 2008, a tier structure was established which changed the basis for defining enrollment in the waivers.

1. Services Received by Waiver Enrollees (continued)

In addition to the services cited above, many waiver enrollees receive Medicaid State Plan services. Table 1c summarizes the number and percent of waiver enrollees who use these services.

Table 1c: Clients Using Medicaid State Plan Services by Month of Service

2. Services Received by Persons on the Wait List

Table 2a lists non-Medicaid APD services received in April, May, and June 2010 by individuals who requested enrollment in a waiver but were not enrolled as of the first day of the respective months. Funding for these services came from General Revenue and the Social Services Block Grant. Individuals on the wait list aged 21 or younger may also receive services from the Florida Department of Education and other state and local resources.

*The implementation of tiers changed the definition of the wait list to exclude those on the FSL waiver (now Tier 4). See Tables 1a, 1b, 1c and 1d for information on services used by waiver enrollees. Source: Wait List and ABC Databases as of August 1, 2010.
Table 2b provides client counts of persons on the wait list who received APD non-Medicaid services (see Table 2a) or Medicaid State Plan services. APD non-Medicaid services are provided with state General Revenue and grant dollars. Because some clients received both APD non-Medicaid and State Plan services, the client count in the third row is an unduplicated total rather than a sum of the two prior rows. The last two rows in the table provide information on wait list clients who received neither non-Medicaid nor Medicaid State Plan services.

* The implementation of tiers changed the definition of the wait list to exclude those on the FSL waiver (now Tier 4).
**Clients are counted only once regardless of the number of different services they received.
***Based on historical payment patterns, Medicaid State Plan services are undercounted due to the anticipated unsubmitted claims for the reported service months as of the database effective date.

3. Waiver Enrollment Offers for Persons on the Wait List as of July 1, 2010

Tables 3a and 3b provide the number of individuals on the wait list as of July 1, 2010, who were offered waiver enrollment in FY 2005/06, FY 2006/07, FY 2007/08, FY 2008/09 and FY 2009/10, with results of those offers indicated. Over 9 percent of the clients on the wait list as of July 1, 2010, have been previously offered waiver enrollment since June 2005. These two tables formerly included those on the FSL waiver. However, as noted in the footnotes, the wait list definition has changed with the implementation of the tier structure.

The implementation of tiers changed the definition of the wait list to exclude those on the FSL waiver (now Tier 4).

4. Waiver Enrollment in Fiscal Year 2009-10

Table 4 summarizes new waiver enrollment to date in FY 2009-10. The counts are broken out by client category, waiver, and month of enrollment. Brown v. Bush enrollments are placements of institutionalized persons on a waiver pursuant to the lawsuit settlement. Crisis cases are enrollees whose needs for services have been determined to require priority enrollment. Foster kids are children on the wait list for the DD/HCBS Waiver who have open cases in the Department of Children and Families’ child welfare system. Pursuant to proviso language in the General Appropriations Act of 2006, these children have been given priority enrollment over other persons on the wait list for waiver services, with the exception of crisis enrollments.

Source: ABC Database as of August 1, 2010, and other APD tracking systems. Due to the implementation of the tiers on October 15, 2008, crisis enrollee clients are no longer offered enrollment specifically in either HCBS or FSL waivers. Currently when making the waiver offer, APD does not specify to a crisis client the waiver to which he or she would be enrolled; this is determined later after an evaluation of the appropriate tier placement for the client.
5. Length of Wait for Waiver Services

Table 5 displays a frequency distribution of the length of time individuals have been waiting for waiver services. Currently, agency policy allows people to remain on the wait list if they refuse services, don’t qualify for services, or do not respond to enrollment offers. These counts include those who may have refused one or more previous waiver enrollment offers and those who have received other state assistance.

Table 5: Length of Wait for Any Waiver Services as of July 1, 2010
