Hillary Jackson, Regional Program Supervisor

- **CDC+**
 - Reminder to all CDC+ Consultants please be advised that new applications and other enrollment documentation including but not limited to the purchasing plan will be sent directly from you to the APD State Office. It is **no longer being processed by the Regional local offices**. Please share this with your staff.
- **Costplan/ABC Issues**
 - Ms. Jackson has conducted ABC demographic queries and have found that sections/items in ACLM 1-5 minimally are still not being updated routinely. Some of you were sent emails from our office advising you that the support plan date is not current, there is no written/spoken language for the consumer and/or the guardian, ACLM1 & 2 not certified, etc. This cannot continue in this manner. All WSCs have been trained on more than one occasion on the importance of maintaining ABC consumer demographic information. This will be monitored ongoing by State Office.

Reminder, the support plan date should be 10/1/14, 11/1/14, 1/1/15 – not 10/12/14, 11/3/14, 1/27/15. It should be the **first** of the month.

The data run/spreadsheet sent to support coordinators captured the entire caseload. Within that spreadsheet you should **carefully look** at every single column to ensure it is correct. If not, you will need to **make the needed corrections in the ABC system** on the appropriate pages. Please comply before the **10/31/14 deadline**.

When a costplan has been returned to you (support coordinators), please ensure that you are carefully reading the Region/Area processing comments. Do not solely focus on the Reason for Area/region submission comments.

- Costplan increases within algorithm amount – discussed the process in place for APD and/or State Office to review services. The FY15-16 amounts are unclear for these effected 14,000+ individuals statewide. Upon receipt of more information from State Office, we will share it with you.
- Providers please create a helpdesk ticket when you have issues that you are not able to resolve such as billing.

- **Documentation**

- All service requests and annual support plans require the determination of medical necessity be made by our office. Support coordinators, you are still required to provide us with supporting documentation to justify the service request. Please refer to the Handbook requirements for services or refer to the SFR training that was held for support coordinators.

- **Support Plan/Case Note Issues/Service Request**

- When submitting a Supplemental Additional Needs Request (SAN) for your consumer you must submit all supporting documentation for existing services – we recommend the most recent documents for approximately 6 months. Additionally, you must provide justification for the new or increased service you are requesting.

Kirk Ryon, Regional Program Supervisor

Kirk Ryon Introduced Ms. Rosa Llaguno as the newest member of the Southern Region Quality Assurance team. Ms. Llaguno had previously worked with the GR units and with community development. Ms. Llaguno will now be working in the QA Team as the Delmarva Liaison and will be working with providers to create and complete their plans of

remediation. Ms. Llaguno's office number is 305-377-5815 or she can be contacted via email at Rosa.Llaguno@apdcares.org. Ms. Llaguno will begin working immediately to resolve any outstanding plans of remediation.

Mr. Ryon discussed the encryption of Incident Reports and other protected client information. Providers must encrypt protected client information, particularly Incident Reports when sending them via email. Please review the handout made available at the meeting. From this time forward, any unencrypted email containing incident reports from providers will be returned with the word "encrypt" on the subject line. Just reply use the email with "encrypt" on the subject line attach incident reports to send to APD.

During the past month, the following providers scored 100% on their Delmarva Reviews:
Edith Villar; Therapeutic Behavioral Assessment; Elite Support Care; Truth & Life Group Home; The Trend Group.

During the past week, APD Southern Region held Personal Outcome measure Training. Although 40 individuals had registered for the training, only 15 people attended. Future plans are to get a single larger room for fewer times per month. We will try to eliminate the cap placed on training by the web site.
