

2015 LEGISLATIVE PRIORITIES

FULL INCLUSION

FL SAND supports the concept of **ACCESS TO ALL!**

- ACCESS TO ALL in Public Places
- ACCESS TO ALL for Employment Opportunities
- ACCESS TO ALL for Transportation

FL SAND will work with partner agencies and elected officials in Florida to improve choices for affordable transportation, meaningful employment opportunities and access to all public spaces for all persons with disabilities.

FL SAND's Organizational Goals for 2015:

- FL SAND would like to position itself as the organization that is sought out by elected officials and by the media when issues are being discussed and decided about Self-Advocacy and Self-Determination on a state and national level.
- FL SAND would like to be a catalyst in improving knowledge and education about both financial literacy and health literacy for persons with disabilities and will implement communication strategies to be a hub of information for the community at large.
- FL SAND would like to become fully incorporated into the legislative process and be a trusted liaison for persons with disabilities to elected officials and be an integrated part of policymaking.
