

PROVIDER ADVISORY #2020-020

SESSION 3: APD ICONNECT EXTERNAL PROVIDER INTERFACE WEBINAR

OPTIONAL ACTION

EFFECTIVE DATE: OCTOBER 7, 2020

The third webinar for providers who either have their own electronic health records (EHR) system or contract with an EHR system will be hosted on Friday, October 23. APD will provide information about how an external EHR system can interface with APD iConnect and what information can be transmitted from the external EHR system to APD iConnect.

The first webinar on August 21 ([access Session 1 recording here](#)) was a general overview of the system and timeline. The second webinar on September 18 ([access Session 2 recording here](#)) focused on presenting answers to questions submitted in advance by providers. If possible, please review both of these presentations before attending the October 23 webinar.

This third session will be a similar format as Session 2. Please email your questions to iconnect@apdcares.org by Wednesday, October 14.

Topic: Session 3: APD iConnect External Provider Interface Webinar

Date: Friday, October 23, 2020

Time: 11 a.m.-12 p.m. EDT

[CLICK HERE](#) to register for the webinar on October 23. After registering, you will receive a confirmation email from customer care@gotowebinar.com containing information about joining the webinar.

This webinar is informational only. There will not be a certificate or in-service units. [Click here](#) for more information about APD iConnect. Read FAQs for providers [here](#).
