

WSC ADVISORY #2021-002
BILLING CODE CHANGES FOR ASSISTED LIVING FACILITIES
INFORMATIONAL

EFFECTIVE DATE: JANUARY 12, 2021

This advisory is specific to Assisted Living Facilities which render Residential Habilitation services through the iBudget Waiver. The Agency for Persons with Disabilities and the Agency for Health Care Administration are implementing new procedure codes for Assisted Living Facilities that will be effective on January 1, 2021.

Assisted Living Facilities which provide Residential Habilitation services through the iBudget Waiver will receive updated service authorizations with the new billing codes from the Waiver Support Coordinators of clients who reside in the Assisted Living Facilities. This will ensure that Assisted Living Facility providers can bill for monthly Residential Habilitation services provided during the month of January. If providers bill under the current billing codes for services delivered after January 1, 2021, the claim will be denied.

For a list of new procedure codes click here to access the [iBudget Provider Rate Table](#) .

Assisted Living Facilities personnel should contact a client's Waiver Support Coordinator if that have questions regarding Residential Habilitation services authorizations.
