

Documenting Services using the Provider Documentation tab of the Consumer's Record.

Introduction

Upon a Consumer receiving services, Providers are required to track and maintain those services and the details surrounding them. These details can include a variation of record keeping methods based on the type of service(s) rendered. The documentation types include Progress Notes, Attendance Logs, Service Logs, Trip Logs, or a combination of documents.

This job aid will encompass using iConnect to record services using the Provider Documentation Tab of the Consumer's record. If services are required to use the EVV system, this aid will not address those tasks, please refer to the [EVV Information and Training Material](#) website.

How to use this job aid: to understand how to fill out the Provider Documentation Screen, use the "Intro to completing Provider Documentation Screens with detailed images" section. This provides detailed instructions on how to complete the required fields of the Provider Documentation screen. Once familiarized with how the Provider Documentation record can be completed, use the Documentation specific sections as a quick reference to complete the required documentation (Service Log, Monthly Summary, Annual Report, etc).

Please refer to the [Developmental Disabilities Individual Budgeting Waiver Services Coverage and Limitations Handbook](#) for specific documentation requirements. Services provided after the implementation of iConnect must be added to iConnect prior to billing. Once a service is live in iConnect, the contracted vendor monitoring handbook compliance will look for documentation in iConnect.

Note: [Text area with example text: "The following is an example. I picked Lyre up from his home at 3Pm and they went to the movies. Lyre wanted to see the new Wonder Woman movie that just came out and afterward chose to eat dinner out. Lyre wanted pad thai, so we went to PadThaiRestaurant that is his favorite. Lyre ordered the pad thai from the waitress and he asked to it to be very spicy. He also ordered a cola to drink. As we waited for our meals we talked about how we felt about the new Wonder Woman movie. Lyre informed me that he didn't like the bad guy. He was also hoping that the main character would have found a love interest. When our meals arrived, we ate at the restaurant. There was just too much food! We took leftovers home in a to go box."]
